HERRYS - ATTRACTIVE 2-STOREY COMMERCIAL SPACE FOR SALE IN THE PREMIUM METROPOLIS PROJECT.

Real estate agency HERRYS offers exclusively for sale an attractive 2-story commercial space located in the premium METROPOLIS project. The project is being built at a lucrative address in the heart of Bratislava's downtown, on Bottová street. The commercial space is located in tower A and has an entrance directly from the commercial pier, from Bottová Street. The space has large-format elegant glazing with a view of the commercial pier and the newly emerging downtown. Thanks to the glazing and the airiness of the space, it will ensure excellent visibility and thus the attractiveness of the business operation. It is a 2-floor space, while the 1st floor is characterized by high headroom. The space is sold as a shell and core space, with connection points to engineering networks. For the space, it is possible to purchase a parking space/spaces in the ground-floor garage hall, located directly behind the background of the future commercial operation.

DISPOSITION

The commercial space consists of two floors with a total usable area of 221.47 m².

1st floor: 112,39 m²

2nd floor: 109,08 m²

The 1st floor is characterized by a high clear height - up to approx. 4.2 m. As part of the design, an opening is prepared for the completion of the staircase that will connect the 1st floor with the 2nd floor. The main entrance to the commercial space is directly from the commercial pier on the ground floor. The second entrance is located on the 2nd floor - from an elegant corridor.

The total number of floors in tower A is 16 and the orientation of the space is to the north-west, to the commercial pier and the emerging downtown.

LOCALITY

METROPOLIS project is growing in a prestigious district of the Bratislava city center, in the so-called Bratislava downtown, on Bottová street. This new dynamic district combines the charm of the Old Town with the diversity of the modern world. It is an excellent location in the heart of the downtown with the most modern residential and administrative buildings, and it also represents the most modern district in Central Europe. Shopping centers, designer restaurants, bars, the Danube promenade and the historic city center are nearby. After the completion of all planned projects, more than 4,000 apartments will be built here in the next few years, which represents a huge potential for business development and prosperity. The purchasing power of residents in this area is 133 %, which is 33 % above the national average.
